

STATE OF MISSOURI)
) ss
COUNTY OF BUTLER)

IN THE CIRCUIT COURT OF BUTLER COUNTY, MISSOURI
DIVISION I

DORRIS SMITH, PAUL SMITH, RANDY
SOENS, and THOMAS E. CRUTCHFIELD,
individually and on behalf of all
others similarly situated,

Plaintiffs,

vs.

Calvary Educational Broadcasting
Network, a Missouri Not-For-Profit
Corporation, d/b/a KOKS

Defendant.

Case No. *CV 189-6CC*

PETITION

Come now the Plaintiffs by and through their attorney,
Mary L. Dilks, and for their cause of action state and allege
to the Court as follows, to-wit:

1. That the Plaintiffs are members of a class in excess
of one hundred fifty persons who are so numerous that it
is impracticable to join them all as Plaintiffs.

2. That Defendant, KOKS is an FM Radio Station owned
and operated by Calvary Educational Broadcasting Network,
a Missouri Not-For-Profit Corporation, Don Stewart, registered
agent; that the main business office of said Defendant is
located in Butler County, Missouri.

3. That beginning on or about October, 1988, during

the hours 6:00 a.m. to 6:00 p.m. and at all times subsequent to December 1, 1988, electronic items, devices and appliances located in the homes or businesses of Plaintiffs' have experienced interference; that said interference is so strong so as to cause the following, to-wit:

- (a) Television reception completely obliterated on some stations; said reception being replaced by the broadcast of KOKS;
- (b) Television stations with reception problems including, but not limited to lines, wavy pictures, "snow", sound surges, and shadows;
- (c) VCR reception which includes, but is not limited to lines, wavy pictures, "snow", sound surges and shadows;
- (d) Radios reception in which KOKS is heard on stations located in other parts of the broadcast band;
- (e) Radio broadcasts which include sound surges, humming noises, crackling sounds and background noises;
- (f) Background noises, humming, crackling sounds and KOKS broadcasting over and on telephones;
- (g) Various types of problems with items including, but not limited to computers, stereo systems, tape players, musical instruments with speakers, satellite systems and baby monitors.

That said interference has rendered heretofore mentioned items unfit for use and worthless for the purposes to which they had been theretofore put.

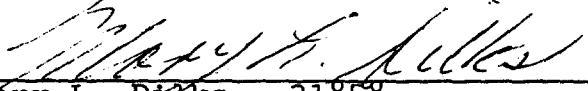

4. That on or about October, 1988, Defendant KOKS began broadcasting from 6:00 a.m. to 6:00 p.m. and on or about December 1, 1988, Defendant KOKS began broadcasting twenty four hours a day; that said Defendant KOKS began operating at 100,000.00 watts; that prior to said dates, Plaintiffs had minimal or no interference when using said items heretofore set forth.

5. That the extent of interference is determined by the direction and distance of Plaintiffs' property from the broadcast station facility; that the individually named Plaintiffs reside in a location in which they experience all or most of the interferences set forth in paragraph 3; that the class of Plaintiffs reside in locations in which they experience interference in varying degrees with varying items.

6. Plaintiffs further alleges that if Defendant KOKS continues to cause interference to the electronic items, devices and appliances of Plaintiffs, Plaintiffs will be unable to peacefully enjoy their property or put said items to the use for which they were intended and will further suffer irreparable damage in amounts incapable of being ascertained and the injury that will be caused by the acts of Defendant KOKS will be irreparable, constituting a wrong to Plaintiffs

for which no adequate remedy can be afforded by an action for damages and therefore, Plaintiffs have no adequate remedy at law.

WHEREFORE, Plaintiffs pray that Defendant KOKS and its agents, servants and employees be forever restrained and enjoined from continuing to allow the Defendant's radio broadcasting to emit interference that renders Plaintiffs' electric or electronic items, devices or appliances unfit for the use intended, and for the costs of this proceeding, and for such other relief as the Court shall deem just and proper in the premises.

ATTORNEY FOR PLAINTIFFS

BUSINESS

Area residents file suit against KOKS

By Jim Carr
Of The Journal Staff

The continuing battle between residents living northwest of town and radio station KOKS-FM will apparently end up in court.

A class action lawsuit was filed Tuesday morning in Circuit Court, Division I, in Butler County asking that KOKS-FM radio station stop interfering with televisions, video cassette recorders and other household electronic appliances of residents near the transmitter at the northwest edge of Poplar Bluff.

The suit was filed by local attorney Mary Dilks of the firm of L. Joe Scott and Daniel T. Moore on behalf of Dorris Smith, Paul Smith, Randy Soens, Thomas E. Crutchfield and any others affected by the signals from the radio station.

The suit estimates that more than 150 people are affected by the station's interference.

The defendant in the lawsuit is listed as Calvary Educational Broadcasting Network, a Missouri not-for-profit corporation, known as KOKS.

The suit claims the radio signal from KOKS interferes with reception on radios, TV sets, tape players, musical instruments, satellite systems, telephones and baby monitors.

The lawsuits asks the "... KOKS and its agents, servants and employees be forever restrained and enjoined from continuing to allow the defendant's radio broadcasting to emit interference . . ."

The plaintiffs also request that the station pay for the costs of lawsuit and "... for such other relief as the Court shall deem as just and proper in the premises."

RE: KOKS Complaints

Dear Mrs. Raines:

At the outset I want to apologize for not providing you with this response on Friday, as I promised. The Stewarts provided the information on which this response is based by Federal Express to this office on Thursday. Unfortunately, I was out of the office and unable to timely prepare this response. Again, I apologize if I have caused you any inconvenience.

CEBN's response to the remainder of the "first wave" of complaints is set forth below. As has been my practice, I will categorize CEBN's response to the complaints as follows:

I. Sent Letters, Failed To Respond

As noted in part of my letter of January 24, because many parties signing the complaint petition did not include a telephone number, CEBN attempted to contact these parties by sending them letters dated January 11 and January 17 asking them to call the station. A number of the complainants did not respond, including: Sherri Goff; Mary Maught; Ed Lee; Cleta Kearleau; Elvis and Francis Wells; Hershall Jewell; Debbie Webb; Chester Stratton; Virgil Campbell; Karen Ward; Gerald Willis; Tammy Tarman; Luther Jensen; Jerry Dee; Donald Campbell; Elmo Clarke; Rev. Eldon Kirks; and, Roy Parr.

II. Letters Returned As Undeliverable

Certain letters were returned as undeliverable, including those to: Larry Pole; John Pallis; Volite Kirks; Christy L. Hyde; Rt. 6, Box 55G; Rt. 6, Box 55M.

FEDERAL BUREAU OF INVESTIGATION

Docket No. 92-122 MMB 18

Presented by Mass Media Bureau
Initiated 11/12/92

Disposition: Received 11/12/92
Rejected _____

Reporter B. Lard

Date _____

III. Complaints Apparently Resolved by
Installation of a Filter

Several complaints have apparently been resolved by the installation of a filter, either by the station staff or the complainant. These parties, including the date the filter was installed or delivered, include the following: Joan Dobbs (2/8); Jim Farley (2/6); Clara Freeman (2/8); and Iva Neal (1/16).

Don Brady could never find time for an appointment, so a filter was left at his home for his own installation (1/12). Mrs. Lillian Frey, whose only complaint concerns Channel 6, was contacted on December 30 and instructed on the correct filter to install.

Similarly, the station contacted Edward G. Hodgins several times to arrange a convenient time to install a filter. When a convenient time was never agreed upon, KOKS personnel told him of the proper filter to install.

As noted in CEBN's last response (1/24) the resolution of four complaints were awaiting the delivery of correct filters. The filter for two of those complainants, David Birdsong and Barbara Lewis, are presently available at the station for the complainants to pick up, in accordance with their expressed wishes. The filter for Mrs. Judy Cox is available, but Mrs. Cox has asked the staff to wait to install the filter until the Cox's have installed a new antenna. The station is still awaiting a call. Similarly, Mrs. J.M. Middleton's filter is available, and Mrs. Middleton has told the station's staff that she will call to arrange an appointment for installation which is convenient.

IV. Complaints Which Have Not Been Resolved
Because of Scheduling Difficulties

CEBN has been unable to resolve certain parties complaints because scheduling difficulties have prevented meetings between the complainants and station personnel. For example, Randall Felts (aka Filo, see letter of 12/6) is often out of town, and KOKS personnel have had a great deal of difficulty reaching him. Mr. Felts has told station personnel that he intends to call today (February 10) to arrange an appointment for KOKS staff to visit his home to install a filter. Similarly, Debra Proctor was contacted and said she would call the station after she had determined a convenient time for a visit. Ms. Proctor has never called the station back. Other parties whom CEBN has often repeatedly contacted, but with whom station personnel have not

yet met include: Leona Gunter, Mrs. Paul Summers (meeting scheduled for 2/11); and, Janet Smith.

Station personnel were able, in some instances after numerous tries, to arrange appointments with complainants to resolve the alleged "interference" problem. In several instances, station personnel appeared for the scheduled appointment but the complainant did not. In each of these instances CEBN personnel have attempted to recontact these parties by telephone without success. These complainants include: Sandra Durbin, who is a Channel 6 interference complainant (see my letter of December 6) but who did not appear at her home to meet with KOKS personnel, as scheduled. Mrs. Garrison and Laverne Allister also did not appear at scheduled meetings, and despite repeated attempts by station personnel, no follow-up appointments have yet been arranged.

V. Complainants Who Refuse to Allow KOKS Personnel on Their Property or Refused to Schedule an Appointment

A number of erstwhile complainants have been contacted by KOKS staff members, and have refused to schedule an appointment or meeting when KOKS personnel could examine their equipment and discuss their complaint. These parties include: Mrs. Regina Wheeling; Sheila Diel; Bud Korsen (see Part VIII of December 24 letter); Margery Marshall (Channel 6 complaint); and Mary J. Clemons. The party identified only by the address of "P.O. Box 47" responded in writing to the station's January 17 letter by stating that they did not want a visit from station personnel.

VI. William Hillis' Complaint

Mr. Hillis is one of the original complainants (see letter of 12/6) and no less than four complaints may be traced to him: his own; Camelot RV Campground; Camelot Estate Mobile Home Court; and, Bill and Jean's Saw Repair.

Mrs. Stewart called Mr. Hillis and made an appointment to see him. She met with him in the company of Charles Lamp, the station's contract engineer who also works for two other FM radio stations in the area. Mr. Hillis' main TV is served by satellite, and during the observation period when KOKS was operating at full power, neither Mrs. Stewart, Mr. Lamp, nor Mr. Hillis could observe or detect any interference. Mr. Hillis also could not be specific concerning the kind of interference he received on that set or the channels on which the interference was received. Mrs. Stewart and Mr. Lamp also inspected a small TV set in a back room used by Mr. Hillis' children for video games. Mr. Lamp inspected

February 10, 1989

Page 4

the TV and discovered that the alleged interference was the product of a short in the TV. Mr. Hillis also complained of interference to his tape player, but no interference could be heard when Mr. Hillis played a tape during the visit.

Mr. Hillis has also complained of interference to the pay phone in his trailer court, but a filter installed by the telephone company cured the problem. Interference to a second phone cannot be cured because of the design of the phone.

Throughout the visit Mr. Hillis' complaints concerning the station's interference were vague and, as noted above, no interference could be observed on any system of which he complained.

However, to end these repeated and vague complaints, Mr. Hillis was asked and has agreed to put his complaints in writing in as detailed a manner as possible so that the station can, if possible, put a final end to this matter.

The resolution of the complaints for which station personnel are still awaiting appointments will be forwarded to you as soon as possible.

VII. Miscellaneous

The complaint of Mrs. Ted Adams can not be addressed because she has a booster. The complaint of Larry Walter involves only Channel 6 interference. Mr. Walter has been contacted by station staff and informed of a filter that may help the problem.

If you have any questions concerning this matter, kindly do not hesitate to give me a call.

Very truly yours,

RE: KOKS Complaints

Dear Mrs. Raines:

As has been our past practice I am below setting forth Calvary Educational Broadcasting Network's (CEBN) responses to the "second wave" of petition complaints forwarded to me by your office. The station's verbatim response to the complaint is included below. As has been our practice, CEBN responded to the following categories of complaints.

I. Channel 6

In each of these instances the complaints involved interference to Channel 6, and KOKS personnel responded by informing the complainant of the availability of a filter which will cure the problem if installed. These complainants include: Ellen Tinsley; Freida Davis; Marvin Pierce; Edward R. Pierce; Linda (?) Alexander; Glen and Gayle Hickey; Karen Dekins; Karen Harty; Ralph Harty; Dan Wyatt; Denise Mabny; Richard and Helen Starling; Harley Choot; Joe L. Horn; Neva L. Dunscombe; Dan Gregg; Sharon Bradford; Gail P. Duffy; Oletta (?) Lassiter; C.H. Lassiter; Betty Ann Morse; Mr. & Mrs. L.G. Moats; Ted Smith; James Gallmore; and James (?) Andrews.

II. Boosters

Several complainants complaining of interference had boosters, including: Percy Beckham; Mrs. Thomas Allen; David Wingate; and, George B. Wisdom.

III. No Contact After Repeated Tries

In several instances, station personnel have made repeated attempts to schedule appointments to visit complainants' homes, or have made repeated telephone calls at different times

mmB

Rejected 13. Lord

Reporter 13. Lord

Date 11/12/92

attempting to reach the complainant, unsuccessfully. These complainants include: James Finney; Shellee D. Wall; and, Janet Smith.

IV. No Interference

In two instances complainants were contacted (in one instance twice) and informed KOKS personnel that they were not experiencing any interference. These complainants included Chris (?) D. Johnson and W.J. White.

V. No Response to Letter

In many instances complainants could not be contacted by telephone and were sent letters requesting the complainant to call the station. These letters were sent to the address noted on the petition. In several instances, the station has received no response from the complainant to these letters. These complainants include: Cindy Kelly; Benny Brant; John D. McClung (?); Henry Paul; W.J. Dee; and, Rev. Earl Kearby.

VI. Complaints Cured

KOKS was able to cure the interference problems of several complainant with the installation of a filter. These complainants included: Clyde/Clara Freeman; Helen Minehart; Mrs. William T. Gray; Leona Gunter; Cathy Kearby; G. Wayne Kearbey; Sandra Durbin; John Parker; and Elaine Libes.

VII. Appointments Pending

KOKS personnel have made appointments to visit the homes of three complainants in an attempt to cure the problem. These complainants include: Carl D. Summers; Whispering Dales Boarding Home; and, LaVerne Allister.

VIII. Miscellaneous

Station personnel were unable to resolve several complaints for the reasons set forth below:

1. Randall Felts (Filo). KOKS personnel have made repeated attempts to contact Mr. Felts without success, as recounted in CEBN's earlier communications to you. When Mr. Felts was finally contacted by KOKS personnel he was unable to agree upon a mutually agreeable time to visit his home. Station personnel

②

②

February 24, 1989

Page 3

will make one more attempt to resolve this complaint in the next conversation with Mr. Felts.

2. Ann Dement. Station personnel visited the Dement home, but Mrs. Dement refused to allow her television receiver to be moved to install a filter. Mrs. Dement was generally hostile and referred to the on-going litigation.
3. Stella Arnold. Station personnel have twice spoken with Mr. Arnold, and were informed that Mrs. Arnold is visiting St. Louis. Mr. Arnold did not complain of any interference and could not shed any light on Mrs. Arnold's complaint.
4. Mr. Dunlap. KOKS personnel visited Mr. Dunlap's home to install a filter. Mr. Dunlap requested that the station personnel return in approximately two weeks after he installs a new wire to his TV antenna.
5. Barbara L. Green, David and Brenda McKnight. When contacted by KOKS personnel Mrs. Green stated that she was not receiving any interference. Similarly, when KOKS personnel visited the McKnight home, Mrs. McKnight could not identify any interference on her television receiver. At Mrs. McKnight's suggestion, Mr. McKnight was called, and stated that the interference complained of on the petition referred to a Canadian channel received via satellite.

Significantly, both Ms. Green and the McKnights told KOKS personnel that their petition complaints were altered after they signed the petition. Ms. Green stated that she only signed the petition, and did not circle any of the other information noted on her petition. Similarly, David McKnight only circled "telephones" and "satelites" (sic) on the petition. KOKS personnel will attempt to obtain affidavits or verified statements from these complainants concerning this matter.

Clearly, both the station's staff and the FCC's staff are subjected to additional work and expense responding to complaints which are manufactured, or which are made more difficult to resolve because the nature of the complaint is altered after the complainant signs the petition. Other than the fact that complaints generated as these petitions have are inherently

③

③

February 24, 1989
Page 4

suspect, this latest information casts further doubt on the validity of the complaints which you have been receiving, collating, loading into the Commission's computer and forwarding to me, and which KOKS has spent so much time and treasure to "resolve."

If affidavits are received they will be sent directly to you, for your appropriate response to the party who is forwarding these complaints to you.

If you have any questions or any requests concerning any of these matters I hope you will give me a call.

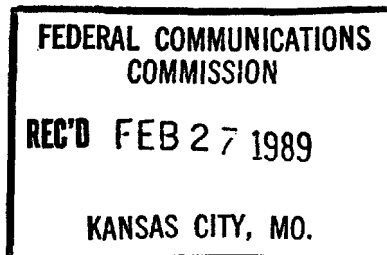

Very truly yours,

MAY & DUNNE, CHARTERED

radio programming of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. NOW 24 HRS.

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children cannot enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting heir radio signals, not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

As you read this letter please support this effort to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children cannot enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

CALLER on 1-16-89 AT 1:45 P.M. CHANNEL 6 IS OUT TOLD OF A FILTER

Want,

Are you having electrical difficulties due to the radio signals from KOKS FM radio station?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programming of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. NOW 24 HRS.

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.
